eBiZolution

eBiZolution started its corporate life in 2008, and since then has been serving as a systems integrator for both Government and Private Sectors. Today, the company leads the local industry in the areas of Business Recovery and Resiliency, Cybersecurity and Privacy, Emergency Management Systems + Command Control Centers, as well as Custom Solutions Architecture & Design. The company has taken and will continue to take Business Continuity & Resiliency to an advanced level in preparing the enterprise for the expectations and demands of the digital age.

MULTI-INDUSTRY ADVANTAGE

Since its inception, eBiZolution has proven to be an industry leader in data. Our pioneering experience in industries such as finance, power and utilities, government and telecommunications, among others, allows us to work alongside our clients as true partners by providing industry-standard solutions and critical technology proficiency.

THE eBiZolution DIFFERENCE

Our varied and extensive experience enables the company to develop state-of-the-art intelligence systems that work using cutting-edge technology and methodologies. The result is a comprehensive solution portfolio focusing on the core disciplines of data assurance, security, and resiliency, as well as technical expertise in custom solutions architecture & design. We have proven to be capable of creating and integrating innovative technologies into relevant business solutions for our customers.

DRIVING DIGITAL TRANSFORMATION

The company has rapidly evolved and today leads the local industry in the area of Data: Data Assurance, Data Security and Data Resiliency, an utmost need by all companies in today's world.

More so the pandemic has impacted businesses decisively. To maintain the pace of digital transformation, the company plays a significant role in the client's strategy in attaining business goals and equip leaders and team members with frameworks, strategies and tools to capitalize on the opportunities and avoid the threats that accompany the increasing digitalization of business models.

eBiZolution makes Digital Transformation happen.

CUSTOMERS AND THEIR CORE BUSINESS

Our talent lies in creating innovative solutions that integrates the latest and most significant sophisticated technologies in the world, delivering tremendous competitive and operating advantages to our customers. eBiZolution is committed to empowering customers and enabling them to focus on their core business. This is the ultimate goal of eBiZolution.

The company's solutions portfolio, whether the customer is a private financial institution, a publicly-listed manufacturing or utility company, the highest court of justice, the leader in safety and fire prevention, a conglomerate, a leading media company, an emerging provincial government or an institution tasked with managing national monetary affairs, mirror eBiZolution's conviction.

This is our contribution to building this Nation.

Our Vision
Empowering Nation-Building through Innovative Zolutions.

Our Mission

Our Core Values

Customer-Focused

Results-Oriented

Innovative Team

Entrepreneurial Spirit

Socially Responsible

Nation Builder

Our Ethic

We LISTEN, UNDERSTAND, COLLABORATE to provide Innovative Solutions.

Our Core Strategies

Customer Intimacy > OUR VALUE DISCIPLINE

Just like a medical specialist, we invest the time and resources to understand our customers' needs and challenges, and ensure that all our internal capabilities are aligned with everything it takes to achieve the best resolution. Beyond talking to them, we put ourselves in the customers' shoes so we can feel what they feel, and see what they envision.

Customer Centricity > OUR DIGITAL STRATEGY

Focusing on our Customers - their needs, ambitions and challenges - is our first value. That said, we are committed to not only satisfying customers, but working towards providing each of them their competitive advantages. We will prepare Customers for the future.
